

Full, professionally-crafted set of 20 Upwork proposal templates specifically for **Zapier and n8n automation projects**, fully aligned with your sales playbook, outreach scripts, requirement-gathering framework, and positioning strategy from earlier prompts.

These templates are designed to:

- Stand out from generic “copy-paste” proposals
- Show expertise immediately
- Ask smart requirement questions
- Include quick wins
- Increase reply & hire rates
- Work for small fixes → enterprise workflows
- Build trust FAST

Feel free to paste these directly into Upwork and customize lightly for each job.

20 High-Converting Upwork Proposal Templates

For Zapier + n8n Workflow Automation Projects

Template 1 — Fix a Broken Zap / Debugging

Hi {{ClientName}},

I can fix this Zap for you quickly — I deal with broken triggers, missing fields, authentication issues, and branching errors **every day**.

Here's how I'd approach your issue:

1. Inspect trigger data + history logs
2. Identify which step/field is failing
3. Rebuild or optimize the logic
4. Add alerts so it never breaks again

Quick question:

☞ Which step is currently failing? (Trigger? Formatter? Webhook? Conditional path?)

I can start immediately and deliver within a few hours.

Let me know — happy to help :)

Template 2 — Build a New Zapier Automation from Scratch

Hi {{ClientName}},

I've built 500+ automations using Zapier and would love to help with your workflow.

To start, I'd need:

- Trigger tool
- Apps involved
- The exact output/action you expect

A quick win: I can also set up error-handling + Slack/email notifications so this workflow is reliable long-term.

Shall I send you a small diagram of how I'd structure the automation?

Template 3 — Multiple Zaps Needed / Full System Automation

Hi {{ClientName}},

I specialize in building **multi-step, multi-app automation systems** using Zapier and n8n — perfect for what you outlined.

My approach:

1. Audit your current manual steps
2. Convert them into automated processes
3. Optimize all tools to work together

4. Deliver documentation + training

Can you share:

☞ Which apps must be connected?

☞ How many workflows are needed?

Happy to jump on a quick call if needed.

Template 4 — Zapier + CRM Integration

Hi {{ClientName}},

I work extensively with CRMs like HubSpot, Pipedrive, Zoho, and Salesforce — setting up:

- Lead routing
- Contact enrichment
- Deal creation
- Email → CRM syncing
- Slack notifications

I can build your automation cleanly and avoid common CRM pitfalls like duplicate records.

Two questions to begin:

1. Which CRM do you use?
2. What field mapping do you want?

Ready when you are!

Template 5 — n8n Workflow Build (Advanced)

Hi {{ClientName}},

n8n is my specialty — especially **complex branching, API logic, custom nodes, and error-handling**.

For your workflow, here's what I'd do:

- Create a scalable n8n structure
- Build custom logic nodes
- Add retries + monitoring
- Document each step

Could you confirm:

☞ Are you using n8n Cloud or Self-Hosted?

Happy to start right away.

Template 6 — n8n Self-Hosted Setup

Hi {{ClientName}},

I've deployed many n8n self-hosted setups using Docker, VPS, and cloud environments.

Your setup will include:

- ✓ Secure HTTPS
- ✓ Database & storage setup
- ✓ Backup & restore
- ✓ User permissions
- ✓ Production-ready workflows

Quick question:

☞ Which server provider are you using (DigitalOcean, AWS, etc.)?

Happy to assist.

Template 7 — API Integration (Zapier or n8n)

Hi {{ClientName}},

I specialize in connecting APIs using Zapier Webhooks and n8n HTTP nodes.

I've built dozens of custom API automations.

To proceed, I'd need:

- API endpoint URL
- Required payload
- Authentication type (API key, OAuth, Bearer token)

Want me to test the endpoint and share a sample response?

Template 8 — eCommerce Automation

Hi {{ClientName}},

I automate Shopify, WooCommerce, Stripe, PayPal, and inventory flows regularly.

Common automations I build:

- Abandoned cart workflows
- Order → CRM syncing
- Order confirmation + Slack alerts
- Inventory updates
- Customer segmentation

Two quick questions:

1. Which store platform do you use?
2. What system should orders sync into?

Happy to help!

Template 9 — “Fix My Existing Workflows” (Cleanup & Optimization)

Hi {{ClientName}},

I specialize in **fixing messy or outdated automation systems**, including:

- Duplicate Zaps
- Redundant workflows
- Missing error-handling
- Slow or inefficient steps

- Incorrect branching logic

I'd start by auditing your workflows and giving you a clean optimization plan.
Would you like a **free workflow audit** before we begin?

Template 10 — Build a Multi-Step Lead Generation Automation

Hi {{ClientName}},

I help businesses fully automate their lead workflows:

Form → CRM → Email → Slack → Task → Reports

I can build a complete system tailored to your needs with:

- Clean field mapping
- De-dupe logic
- Error-handling
- Reporting

Which form tool do you currently use (Typeform, Jotform, Gravity Forms, etc.)?

Template 11 — Operational / Back-Office Automation

Hi {{ClientName}},

Your operational process is a great fit for automation. I can automate:

- Invoicing
- Client onboarding
- Data cleanup
- Task allocation
- Notifications

My approach always includes documenting your workflow so your team can rely on it.

Want me to map your process visually before building?

Template 12 — Real Estate Automation

Hi {{ClientName}},

I work with real estate agents to automate:

- Lead routing
- Showing appointments
- CRM follow-ups
- Email → CRM mapping
- Property workflow alerts

What tools are you currently using (KVCore? FollowUpBoss? Zillow? Other)?

Template 13 — Marketing Agency Automations

Hi {{ClientName}},

I help marketing agencies automate:

- Client onboarding
- Reporting
- Lead tracking
- Communication workflows
- File management

Your project is exactly the type of system I build regularly.

Do you want this built in Zapier, n8n, or a hybrid?

Template 14 — SaaS Company Automations

Hi {{ClientName}},

I support SaaS teams by automating:

- User onboarding
- Trial → paid flows
- Usage tracking
- Stripe → CRM syncing
- Support ticket workflows

I'd love to help build your system — may I see your current tech stack?

Template 15 — “Need Fast Delivery” Projects

Hi {{ClientName}},

I can deliver this today — I specialize in **rapid automation builds (2–6 hours)**.

Before I begin, may I ask:

☞ What's the main goal of this workflow?

☞ What tools are involved?

Happy to start immediately.

Template 16 — Complex Multi-Branch Workflow (Zapier Paths or n8n)

Hi {{ClientName}},

Your project requires advanced logic — perfect for my expertise.

I'll build:

- Multi-branch conditions
- Filters + formatters
- Data transformations
- Failover/retry logic
- Audit logs

Can you share examples of your branching rules?

Template 17 — AI + Automation (Zapier OpenAI or n8n OpenAI Node)

Hi {{ClientName}},

I regularly build AI-powered workflows such as:

- Email classification
- Content generation
- Data extraction
- Summaries + sentiment
- Auto-response workflows

Which AI provider do you prefer — OpenAI, Anthropic, or both?

Template 18 — Migration to n8n from Zapier

Hi {{ClientName}},

I help teams migrate from Zapier to n8n to cut costs and increase reliability.

Migration includes:

- Mapping all workflows
- Rebuilding in n8n
- Optimizing branching
- Setting up monitoring
- Training + documentation

How many Zaps do you currently have?

Template 19 — Full Automation Audit / Consultation

Hi {{ClientName}},

I offer a detailed review of your entire automation environment.

Audit includes:

- Workflow mapping
- Complexity analysis
- Bottleneck detection
- Recommendations
- 3–7 quick win proposals
- Full implementation roadmap

Would you like me to audit your entire setup or just specific workflows?

Template 20 — Long-Term Automation Partner

Hi {{ClientName}},

If you're looking for long-term automation support, I can help with:

- New workflow builds
- Maintenance
- Monitoring
- Documentation
- Upgrades
- Error-handling & fixes

I become your dedicated automation partner — handling everything behind the scenes.

Would you prefer a monthly retainer or project-based support?
