

Professionally structured pricing sheet with tiered packages for a **Zapier + n8n automation consultancy**, aligned with the roadmap, services, and business strategy created earlier.

Designed to be:

- Clear
- Client- friendly
- Scalable
- Enterprise- ready
- Easy to publish on a website or proposal

You can use these packages **as-is**, or I can customize them for a specific niche (e- commerce, real estate, agencies, SaaS, financial services, etc.).

📄 Automation Consultancy Pricing Sheet

(Zapier + n8n Workflow Engineering & Integrations)

★TIER 1 — Starter Packages (Entry Level)

Designed for solopreneurs, small business owners, creators, and early-stage startups.

1. Quick Automation Setup

Price: \$249 – \$499 (one- time)

Ideal For: Simple automations to kickstart productivity.

Included:

- Up to **2 workflows** (Zapier or n8n)
- Basic triggers + actions
- Connect up to **3 apps**
- Basic error handling
- Documentation (simple checklist)

Common Use Cases

- Form → Email → CRM
- Lead notifications

- Calendar event automation
 - Email parsing to sheets
-

2. Automation Essentials Package

Price: \$500 – \$1,250 (one- time)

Ideal For: Small teams needing multiple simple-to-moderate workflows.

Included:

- Up to **5 workflows**
 - Multi-step logic
 - Conditional paths (branching)
 - Data transformations
 - Integration between **5–7 apps**
 - 7- day post- delivery support
-

3. Automation Audit & Optimization

Price: \$250 – \$750 (one- time)

Ideal For: Businesses with existing Zaps / n8n flows that break often.

Included:

- Full review of existing automations
 - Identify inefficiencies
 - Remove redundant steps
 - Fix errors & bottlenecks
 - Provide an optimization report
-

☆☆TIER 2 — Growth Packages (Most Popular)

Ideal for fast-growing startups, agencies, and digital-first businesses.

4. Growth Automation System

Price: \$1,500 – \$3,500 (one- time)

Ideal For: Building a complete automation foundation.

Included:

- Up to **10–15 workflows**
 - Multi- system data syncing
 - Conditional + multi-branch logic
 - API integrations (where supported)
 - Error handling with notifications
 - Documentation + diagrams
 - 14- day support window
-

5. n8n Self- Hosted Setup + Deployment

Price: \$2,000 – \$5,000 (one- time)

Ideal For: Teams that need privacy, scalability, or custom logic.

Included:

- n8n server setup
 - Docker / VM deployment
 - SSL + domain configuration
 - Database & storage setup
 - 3–5 production workflows
 - Monitoring + backup setup
 - Admin training
-

6. Agency Automation Partner Pack

Price: \$1,800 – \$4,500 (one- time)

Ideal For: Marketing/web agencies building client workflows.

Included:

- Unlimited client account connections
 - White- labeled workflows
 - CRM + email + form + billing automations
 - Standard templates
 - 4 weeks support
-

☆☆☆TIER 3 — Enterprise & Advanced Automation Packages

For large companies, regulated industries, and complex workflows requiring orchestration.

7. Enterprise Workflow Architecture

Price: \$5,000 – \$20,000+ (project-based)

Ideal For: Businesses needing reliable, scalable automation systems.

Included:

- Discovery workshops
 - End-to-end workflow mapping
 - n8n or hybrid orchestration
 - Heavy-load workflows
 - Database integrations
 - API-first design
 - Security + compliance review
 - Dedicated project manager
 - 30–60 day support
-

8. Business Process Automation (BPA) Transformation

Price: \$10,000 – \$40,000+

Ideal For: Companies automating entire departments or operations.

Included:

- Department-level workflow redesign
 - SOP to automation conversion
 - Multi-team pipelines
 - Data lifecycle engineering
 - Integration with core systems (CRM, ERP, billing, etc.)
 - Uptime monitoring, alerts
 - On-site/virtual training
 - 3 months support
-

9. Enterprise n8n Self- Hosted Infrastructure

Price: \$8,000 – \$25,000+

Ideal For: IT teams needing secure, scalable low- code orchestration.

Included:

- Multi-node or load-balanced setup
 - Role-based access control
 - Audit logging
 - API gateway setup
 - Enterprise backup + recovery
 - Security hardening
 - Admin dashboards
 - High-availability deployment
-

🔍 TIER 4 — Monthly Maintenance & Retainers (Recurring Revenue)

This is where your consultancy gets **stable, predictable income**.

10. Basic Maintenance

Price: \$299 – \$499/month

Included:

- Workflow monitoring
 - Fix broken steps
 - 1 small update per month
 - Monthly reports
-

11. Growth Automation Retainer *(Most Popular)*

Price: \$599 – \$1,200/month

Included:

- Everything in Basic
 - 3 hours workflow development

- 2 automation upgrades
 - Priority support
 - Error alerts to Slack/Email
-

12. Enterprise Automation SLA

Price: \$2,000 – \$7,500/month

Included:

- 24/7 uptime monitoring
 - Incident response SLA
 - 10–20 hours development
 - Security & compliance tasks
 - New integrations monthly
 - Automation roadmap planning
-

? Optional Add- Ons

Add- On	Price
AI workflow integrations (OpenAI, Claude, etc.)	\$300–\$3,000
Webhooks & custom endpoints	\$250–\$2,000
CRM data cleanup	\$200–\$1,500
Multi- system migration	\$500–\$5,000
Dashboard/report automation	\$350–\$2,000

? Why This Pricing Sheet Works

- Structured in **tiers that match business maturity**
- Offers both **one- time and recurring revenue**
- Pricing is **realistic** for the automation consulting industry
- Allows upsells and cross- sells naturally
- Supports both **Zapier** (simple) and **n8n** (advanced)
