

5 basic-level Webflow assignments, each with **clear, simple feature requirements** ideal for beginners learning the Webflow interface and core concepts.

Basic Level Webflow Assignments (Beginner-Friendly)

1. Create a Simple One-Section Hero Block

Objective: Learn how to add basic elements and style them.

Requirements:

- Create a **Section** and place a **Container** inside it.
 - Add:
 - A **Heading (H1)**
 - A **Paragraph**
 - A **Button**
 - Center all content vertically and horizontally using **Flexbox**.
 - Apply simple styling:
 - Background color for the section
 - Font family and size adjustments
 - Hover effect on the button
 - Preview the layout in **desktop, tablet, and mobile**.
-

2. Build a Two-Column About Section

Objective: Practice layout using columns and image placement.

Requirements:

- Add a new **Section** with a **2-column layout**.
- Left column:
 - Add an **Image** (profile or placeholder).
- Right column:

- Add a heading (H2) and a paragraph.
 - Add spacing using **padding and margin** for cleaner layout.
 - Ensure the design stacks vertically on mobile screens.
-

3. Create a Basic Navigation Bar

Objective: Learn how to use Webflow's built-in Navbar component.

Requirements:

- Insert the **Navbar** component.
 - Change:
 - The brand logo text or replace it with an image.
 - Add at least **three nav links**: Home, About, Contact.
 - Adjust styling:
 - Background color
 - Text color
 - Hover state for links
 - Test navigation in mobile mode (hamburger menu).
-

4. Make a Simple Contact Form

Objective: Understand Webflow's form basics.

Requirements:

- Add a **Form Block**.
 - Include:
 - Name field
 - Email field
 - Message textarea
 - Submit button
 - Style input fields (border, padding, font).
 - Edit **Success** and **Error** states with simple messages.
 - Submit a test entry (view in Dashboard → Forms).
-

5. Build a Simple Footer

Objective: Learn structure using divs, text, and link elements.

Requirements:

- Add a **Footer Section** at the bottom of the page.
- Add:
 - A text block with copyright year
 - A row of **three social links** (text or icons)
- Use **Flexbox** to align items horizontally.
- Make sure the footer:
 - Has a background color
 - Is responsive on all breakpoints
